Aimed at kids ages 5-6 , 10 Minutes a Day Phonics: Kindergarten supports your child as they develop their first English skills in connecting sounds with their letters: identifying first-letter sounds in words, listening for middle- and end-letter sounds, writing the letters of the alphabet, making rhyming strings of words, and showing children how to connect letter sounds to make simple three-letter words. Each

exercise is simply and clearly introduced and uses a variety of interesting methods to help learning, from matching exercises to learning how to pronounce and spell out new sounds and words, based on themes that a young child can easily relate to, such as food, animals, and household objects. For the eager student, there are extra "time filler" challenges on every page if they finish the questions within 10 minutes and want to continue practicing, or just want ideas for additional activities to do at home. No More Phonics and Spelling Worksheets Apr 17 2020 "We want students to be curious about how words work and develop strategies that work whether they are decoding words or spelling them. And our jobs would be easier if students couldn't wait for word study. Yet so many classrooms are stuck in the cycle of unengaging, one-size fits all phonics and spelling worksheets. Reading specialist Jennifer Palmer and literacy researcher Marcia Invernizzi offer better, more effective, more engaging practices.

Their suggestions lead kids to not only make progress during word study but also to transfer what they learn about words to their reading and writing. No More Phonics and Spelling Worksheets show us: why skill-and-drill methods and worksheets cause children to struggle or disengage; the kinds of teaching that research shows actually works; instructional ideas for word study can put to use right away. Pick up No More Phonics and Spelling Worksheets, discover practices that better support literacy growth, and help everyone make progress."--Publisher's description.
