Sound like a far fetched idea? Not so, according to Reuben O. Doyle, a sewing machine repairman of 25 years and author of "Serger Repair for the Home Sewer." "In over 75% of the repair jobs I get, the home sewer/crafter could easily have handled the job if only they'd known what to look for. In about 25% of the repair jobs I go out on, the problem is such a minor one that anyone with a checklist of what to look for could fix it in seconds, but I have to charge them the same service fee as on any repair job. Of course any broken parts need to be taken to an authorized service repairman for repair or replacement, but those types of service calls are by far the minority!" machine owner through problem/solution scenarios allowing them to fix problems that can cause a lot of frustration for those who sew.
