DE UMA SEQUENCIA DE 20 VOLUMES SENDO O DE NUMERO 1 LANÇADO EM 2018. ESTA É UMA OBRA CRIADA COM O INTUITO DE LEVAR AOS PROFESSORES E ALUNOS DE TEOLOGIA UM ESTUDO APROFUNDADO DA INTRODUÇÃO DA PALAVRA DE DEUS E DO GENESIS COM UMA LINGUAGEM SIMPLES ATUALIZADA E DE FÁCIL COMPREENSÃO. Trent C. Butler's excellent commentary on Joshua is updated and revised. This new edition takes into account the most recent scholarly work on the book of Joshua. The commentary includes Butler's translation of the text, explanatory notes, and commentary to help any professor, student, or pastor with research and writing. Features include: -solid biblical scholarship for teachers, pastors, and students -updated bibliography commentary for deeper study -thorough coverage of the biblical languages -close analysis of ancient manuscripts of Joshua The Word Biblical Commentary series offers the best in critical scholarship firmly committed to the authority of Scripture as divine revelation. It is perfect for scholars, students of the Bible, ministers, and anyone who wants a theological understanding of Scripture. Esta obra constitui um dos mais importantes escritos de Søren Kierkegaard, com que o

autor, usando o pseudônimo Johannes Climacus, tentava encerrar, aos 33 anos, sua já alentada produção. O ano de 1846 foi crítico para Kierkegaard, pois ele revisou seu projeto existencial e autoral. Em termos filosóficos, este livro, que durante sua composição usava o título provisório de "Problemas lógicos de Johannes Climacus, editados por S. Kierkegaard" contém o núcleo de sua crítica à lógica hegeliana. This paperback edition of the first of the twelve volumes of *A Treatise of Legal Philosophy and General Jurisprudence*, serves as an introduction to the first-ever multivolume treatment of all important issues in legal philosophy and general jurisprudence, consisting of a five-volume theoretical part and a six-volume historical part. The theoretical part covers the main topics of contemporary debate. The historical volumes trace the development of legal thought from ancient Greek times through the twentieth century. All volumes are edited by the renowned theorist Enrico Pattaro. A presente obra busca apresentar a disciplina direito administrativo tal como ela se encontra no panorama juscientífico brasileiro no início do século XXI, motivo pelo qual intitula-se "Curso de Direito Administrativo Brasileiro". Com o Direito em plena transformação, sentia-se falta de um curso, e não de um manual, esquematizado, descomplicado ou facilitado, que conseguisse expressar, com o rigor metodológico e a abrangência científica que toda

ciência deve ter, os novos institutos e direções que a disciplina necessita. A dita pós-modernidade vem alterando profundamente os temas do núcleo básico do direito administrativo e a presente obra reconhece as importantes mudanças que este ramo atravessa. O direito administrativo vive um dos seus momentos de maior transição, motivo pelo qual se entende necessário expor, de forma sistemática, dinâmica, realista, interdisciplinar, intradisciplinar e transfronteiriça, os novos paradigmas pelos quais essa ciência vem atravessando. Paradigmas esses que ainda estão em construção, mas já trazem ao estudo da matéria desafios. Por isso, consciente da nova conjuntura e das mudanças em andamento, cria-se necessária uma obra que traga uma revisão total da disciplina, epistemológica e metodológica, alcançando todos os institutos e até mesmo o conceito de direito administrativo como ciência. The 1882 three-volume English translation of the 1867 second edition of a landmark biography of Wolfgang Amadeus Mozart (1756-91). Il suo vero nome non è Lua. Niente nella sua vita precedente era vero. Strappata alla madre naturale il giorno stesso della sua nascita, diciotto anni prima, è stata cresciuta in una famiglia fittizia, al riparo dalla verità. Quel giorno tre strani uomini la prelevano da casa: lei è una Promessa. Poi un incidente, una sparatoria, dei "Guardiani" la portano in salvo nonostante

tutto sia molto confuso. Lua rimane con loro quanto basta per scoprire che esistono gli Ibridi, che esiste una Matrice che secondo la profezia satanica genererà un Anticristo duemila anni dopo il Messia, necessario a mantenere l'equilibrio cosmico tra bene e male. E scopre che i Guardiani che l'hanno salvata - e che continuano a proteggerla sacrificandosi in prima persona - sono in realtà Nephilim. Loro fanno parte del famoso gruppo di Lincoln, Guardiani della Luce destinati, secondo la predizione di Hellson - un Ibrido convertito al Sommo Bene e divenuto profeta - a ritrovare la Matrice prima che l'Avvento abbia compimento. Il sentimento per uno di loro, tuttavia, s'intreccerà così tanto con la Missione da mettere in pericolo la sopravvivenza stessa della razza umana. Perché Lua non è soltanto una promessa sacrificale strappata a un altare nero, ma ha un segreto che nessuno conosce, neanche lei. "Esiste un amore perfino più grande di colui che dà la vita per la persona che ama, quello di chi dà l'anima!" (Hellson) Libya is a typical example of a colonial or external creation. This book addresses the emergence and construction of nation and nationalism, particularly among Libyan exiles in the Mediterranean region. It charts the rise of nationalism from the colonial era and shows how it developed through an external Libyan diaspora and the influence of Arab nationalism. From 1911, following the Italian occupation, the first nucleus of Libyan nationalism

formed through the activities of Libyan exiles. Through experiences undergone during periods of exile, new structures of loyalty and solidarity were formed. The new and emerging social groups were largely responsible for creating the associations that ultimately led to the formation of political parties at the eve of independence. Exploring the influence of colonial rule and external factors on the creation of the state and national identity, this critical study not only provides a clear outline of how Libya was shaped through its borders and boundaries but also underlines the strong influence that Eastern Arab nationalism had on Libyan nationalism. An important contribution to history of Libya and nationalism, this work will be of interest to all scholars of African and Middle Eastern history.

Portugal Land Ownership and Agriculture Laws Handbook This Festschrift honours Günter Stemberger on the occasion of his 75th birthday on 7 December 2015 and contains 41 articles from colleagues and students. The studies focus on a variety of subjects pertaining to the history, religion and culture of Judaism - and, to a lesser extent, of Christianity - from late antiquity and the Middle Ages to the modern era. "Just plain awesome" -- Brandon Sanderson Civil unrest cripples the citizens of Adro in the aftermath of the revolution that obliterated the monarchy. Now, Field Marshal Tamas and his lieutenants must confront the true cost of freedom in book one of the

Powder Mage Trilogy. It's a bloody business overthrowing a king. . . Field Marshal Tamas' coup against his king sent corrupt aristocrats to the guillotine and brought bread to the starving. But it also provoked war with the Nine Nations, internal attacks by royalist fanatics, and the greedy to scramble for money and power by Tamas's supposed allies: the Church, workers unions, and mercenary forces. It's up to a few. . . Stretched to his limit, Tamas is relying heavily on his few remaining powder mages, including the embittered Taniel, a brilliant marksman who also happens to be his estranged son, and Adamat, a retired police inspector whose loyalty is being tested by blackmail. But when gods are involved. . . Now, as attacks batter them from within and without, the credulous are whispering about omens of death and destruction. Just old peasant legends about the gods waking to walk the earth. No modern educated man believes that sort of thing. But they should. . . Winner of the David Gemmell Morningstar Award for Best Debut Fantasy. Um guia prático aos caminhos espirituais incomuns, que nos levam à realização da plena iluminação, o objetivo máximo da vida humana. Pela leitura e prática dessas instruções nesse volume, aprendemos a integrar esses profundos ensinamentos a nossas atividades diárias, e dessa maneira podemos desfrutar de uma vida supremamente significativa. A renomada série de TV The Walking dead é o tema do novo

volume da Coleção Cultura Pop. Analisando assuntos fortes como morte, sexo e suicídio, The walking dead e a filosofia procura compreender as profundas mudanças que ocorreriam na natureza humana diante do apocalipse zumbi. Os personagens da série de maior sucesso mundial, recorde de audiência nos EUA, serão analisados sobre a perspectiva de Aristóteles, Immanuel Kant e Nietzsche. THE #1 SUNDAY TIMES BESTSELLER A riveting, deeply personal account of history in the making-from the president who inspired us to believe in the power of democracy - and the perfect gift this Christmas! 'Gorgeously written, humorous, compelling, life affirming' Justin Webb, Mail on Sunday In the stirring, highly anticipated first volume of his presidential memoirs, Barack Obama tells the story of his improbable odyssey from young man searching for his identity to leader of the free world, describing in strikingly personal detail both his political education and the landmark moments of the first term of his historic presidency-a time of dramatic transformation and turmoil. Obama takes readers on a compelling journey from his earliest political aspirations to the pivotal Iowa caucus victory that demonstrated the power of grassroots activism to the watershed night of November 4, 2008, when he was elected 44th president of the United States, becoming the first African American to hold the nation's highest office. Reflecting on the presidency,

he offers a unique and thoughtful exploration of both the awesome reach and the limits of presidential power, as well as singular insights into the dynamics of U.S. partisan politics and international diplomacy. Obama brings readers inside the Oval Office and the White House Situation Room, and to Moscow, Cairo, Beijing, and points beyond. We are privy to his thoughts as he assembles his cabinet, wrestles with a global financial crisis, takes the measure of Vladimir Putin, overcomes seemingly insurmountable odds to secure passage of the Affordable Care Act, clashes with generals about U.S. strategy in Afghanistan, tackles Wall Street reform, responds to the devastating Deepwater Horizon blowout, and authorizes Operation Neptune's Spear, which leads to the death of Osama bin Laden. *A Promised Land* is extraordinarily intimate and introspective—the story of one man's bet with history, the faith of a community organizer tested on the world stage. Obama is candid about the balancing act of running for office as a Black American, bearing the expectations of a generation buoyed by messages of "hope and change," and meeting the moral challenges of high-stakes decision-making. He is frank about the forces that opposed him at home and abroad, open about how living in the White House affected his wife and daughters, and unafraid to reveal self-doubt and disappointment. Yet he never wavers from his belief that inside the great, ongoing

American experiment, progress is always possible. This beautifully written and powerful book captures Barack Obama's conviction that democracy is not a gift from on high but something founded on empathy and common understanding and built together, day by day. 'What is unexpected in *A Promised Land* is the former president's candour' David Olusoga, Observer This volume is the result of an international conference held at Sapienza University of Rome in June 2014, which brought together scholars from different countries to re-analyse and re-interpret the events of the First World War, one hundred years after a young Bosnian Serb student from the "Mlada Bosna," Gavrilo Princip, "lit the fuse" and ignited the conflict which was to forever change the world. The Great War – initially on a European and then on a world scale – demonstrated the fragility of the international system of the European balance of powers, and determined the dissolution of the great multinational empires and the need to redraw the map of Europe according to the principles of national sovereignty. This book provides new insights into theories of this conflict, and is characterized by internationality, interdisciplinarity and a combination of different research methods. The contributions, based on archival documents from various different countries, international and local historiography, and on the

analysis of newspaper articles, postcards, propaganda material, memorials and school books, examine ideological and historiographical debates, the memory of the war and its most important contemporary and popular narratives, and the use of propaganda for the mobilization of public opinion, in addition to military, social, political, economic and psychological aspects of the conflict. Ritorna l'affiatata coppia Jonathan Hickman-Nick Dragotta, con una delle serie creatorowned più acclamate degli ultimi tempi. La saga di East of West mischia fantascienza apocalittica e western di frontiera in un esplosivo mix che ha conquistato critica e lettori di tutto il mondo! Questo eBook comprende i numeri da 1 a 5 della serie East of West, pubblicata negli USA da Image Comics e le biografie degli autori. This is the first book in the English language to offer an analysis of a conflict that, in so many ways, raised the curtain on the Great War. In September 1911, Italy declared war on the once mighty, transcontinental Ottoman Empire \_ but it was an Empire in decline. The ambitious Italy decided to add to her growing African empire by attacking Ottoman-ruled Tripolitania (Libya). The Italian action began the rapid fall of the Ottoman Empire, which would end with its disintegration at the end of the First World War. The day after Ottoman Turkey made peace with Italy in October 1912, the Balkan League attacked in the First Balkan War. The Italo-Ottoman

War, as a prelude to the unprecedented hostilities that would follow, has so many firsts and pointers to the awful future: the first three-dimensional war with aerial reconnaissance and bombing, and the first use of armored vehicles, operating in concert with conventional ground and naval forces; war fever whipped up by the Italian press; military incompetence and stalemate; lessons in how not to fight a guerrilla war; mass death from disease and 10,000 more from reprisals and executions. Thirty thousand men would die in a struggle for what may be described as little more than a scatolone di sabbia \_ a box of sand. As acclaimed

historian Charles Stephenson portrays in this groundbreaking study, if there is an exemplar of the futility of war, this is it. Apart from the loss of life and the huge cost to Italy (much higher than was originally envisaged), the main outcome was to halve the Libyan population through emigration, famine and casualties. The Italo-Ottoman War was a conflict overshadowed by the Great War \_ but one which in many ways presaged the horrors to come. A Box of Sand will be of great interest to students of military history and those with an interest in the history of North Africa and the development of technology in war. Faz dez anos desde que

Val Riggs viu o sol ser engolido pela escuridão. Dez anos desde que quase todo mundo que ela conhecia foi infectado e transformado em seres hediondos. Agora alguém que fornece transporte para pessoas e mercadorias, ela atravessa as estradas mortais sem iluminação em seu caminhão, enfrentando quaisquer males que a noite traga. Quando a promessa de um santuário iluminado cruza seu caminho, Val precisa passar por uma jornada muito além de seus limites! Os lendários Scott Snyder (Liga da Justiça) e Tony S. Daniel (Batman, Deathstroke) revelam horrores sombrios nesta nova série!
