What does it take to engineer a successful vehicle? The story is told through the author's own journey around the globe – starting as a young graduate engineer working for Nissan in the UK, to working for Nissan in Japan and, finally, for Renault in France as Chief Engineer of its 'halo' sports-car, designed to relaunch the Alpine brand. It tells the behind-the-scenes story of three well-known vehicles, whose development teams were led by the author – the Nissan Qashqai, the Renault ZOE, and the Alpine A110 – revealing some of the fascinating stories of how these vehicles came into being. The book seeks to show the real work that goes on behind the glamour of the Motor Shows and the well-honed corporate press releases – work that is sometimes exciting, but often grindingly difficult. DO NOT invite this man to your new car launches unless you have a large budget and a keen sense of humor...! USA TODAY BESTSELLER • In this adrenaline-laced novel of suspense from Tom Savage—hailed by Michael Connelly as “a master of the high-speed thriller”—an American actress in Europe races to find the truth behind her husband’s mysterious accident. What she uncovers makes her the target of a shocking conspiracy. Nora Baron’s life is perfect. She lives on Long Island Sound, teaches acting at a local university, and has a loving family. Then one phone call changes everything. She’s informed that her husband, Jeff, has died in a car crash while on a business trip in England. Nora flies to London to identify the body, which the police have listed as a “John Doe.” When she leaves the morgue, a man tries to steal her purse containing Jeff’s personal effects. Clearly, all is not as it seems. At her hotel, Nora receives a cryptic message that leaves her with more questions than answers. She follows the message’s instructions to France, where a fatal encounter transforms her into a fugitive. Wanted for murder, on the run in a shadowy landscape of lies, secrets, and sudden violence, Mrs. “John Doe” must play the role of a lifetime to stay one step ahead of a ruthless enemy with deadly plans for her—and for the world. Praise for Mrs. John Doe “This is a rare spy thriller, smart, beautifully written, and stay-up-all-night enjoyable!”—Gayle Lynds, New York Times bestselling author of The Assassins “It isn’t easy to blindside a fellow suspense author, but Tom Savage manages to fool me every time. A clever, compelling, and cinematic page-turner in which nothing is as it seems, Mrs. John Doe opens with a twist I didn’t see coming and closes with a

satisfying bang. This longtime Savage fan ranks Mrs. John Doe right up there with Precipice.”—Wendy Corsi Staub, New York Times bestselling author of *The Black Widow* “Mrs. John Doe races a fictional path somewhere between Alfred Hitchcock and Agatha Christie, a modern heroine-on-the-run spy thriller dealing with some of our time’s deadliest challenges.”—James Grady, New York Times bestselling author of *Last Days of the Condor* “Savage twists the plot in two startling ways, and Nora’s transformation from wealthy home-focused wife to clever investigator holds up brilliantly. . . . I enjoyed each page, gasped at the swift twists, and came away with a hunger for more of the same, whether it be thrills, France, or books by Tom Savage.”—Kingdom Books

An automobile, usually called a car (an old word for carriage) or a truck, is a wheeled vehicle that carries its own engine. Older terms include horseless carriage and motor car, with “motor” referring to what is now usually called the engine. It has seats for the driver and, almost without exception, for at least one passenger. The automobile was hailed as an environmental improvement over horses when it was first introduced. Before its introduction, in New York City, over 10,000 tons of manure had to be removed from the streets daily. However, in 2006 the automobile is one of the primary sources of worldwide air pollution and cause of substantial noise and health effects. J.D. Power and Associates automotive journal.
